| Dates: | Course: | Learners: | Fees: |
|---|--|---|---------------------|
| Every Tuesday from; 25 th July, 1 st , 8 th , 15 th , 22 nd to 30 th August 2017. | Pre-enrolment required for all courses, Limited places available!! Book your place(s) now: | | Call for more info. |
| 10.00am to 11.30am [link to related info] | Binary Drumming Class; the language of unifiedknowledge. Expanding Ones freedom of expression, communication skills and maths-music insights (+ e-learning resources). | Children, youth and adults | |
| 11.40am to 12.45pm [link to related info] | The Physics of Warrior Dance: Ground breaking tuition on the relationship of physics and African dance. Come to know what physics is really about. | Mature children and adults | |
| 1.00pm to 2.30pm [link to related info: guide & audio] | Warrior Dance (Dankira Tehwagi); Transformations of Winchi (the African Crowned Crane bird). • African Martial (cultural) Arts • Core ideas of mathematics taught through dance movement and cultural arts (Unifiedknowledge). | Children, youth and adults. Schools Of Unified Learning Tehwagi (cadet) graduation possible for students with perfect attendance and determination. | |
| 2.45pm to 4.15pm [link to related info] | Abit's Secret; revelation and exploration of this classic Unifiedknowledge story (written by Astehmari Batekun): Introducing the key science and maths ideas of space geometry through a highly creative and engaging process. Experimenting with puppetry and performance arts skills. www.abitssecret.co.uk | Children, youth and adults | |
| 4.30pm to 6.30pm [link to related info] | Planetarium CREST Arts Award project: This is an intensive and highly creative science-arts intergration programme (STEAM) focused around explorations of the Solar System, dome structure building from triangular forms and artistic freedom in space. | National awards applicable to children and youth, adults may participate. | |
| 7.00pm to 9.00pm [link to related info] | Educating with Unifiedknowledge; Foundation Course One: Intensive programme of evening classes complimented with e-learning; learn more and be more with the unifiedknowledge educational approach. | Adults; parents and other teachers. Nature-centric pedagogy for families, family-directed-learning and professional educators. | |
| GRADUATION DAY: Sat 2 nd September 2017, 3pm to 8pm | <ul style="list-style-type: none"> • Community building planetarium structure from cardboard!; enhanced by displays of associated CREST Arts Awards portfolio displays. • Solar system projection shows inside the planetarium. https://youtu.be/t_wvQRukZ-Q • "Transformations of Winchi" Warrior Dance display / graduation presentation. • Abit's Secret: communal story reading and related performances. | We welcome the whole community. | |

10.00am to 11.30am

Binary Drumming Class:

The language of unifiedknowledge. Expanding Ones freedom of expression, communication skills and maths-music insights (+ e-learning resources).

The Physics of Warrior Dance:

Ground breaking tuition on the relationship of physics and African dance. Come to know what physics is really about.

11.40am to 12.45pm

Warrior Dance (Dankira Tehwagi):

Transformations of Winchi: (the African Crowned Crane bird). African Martial (cultural) Arts & core ideas of mathematics taught through dance movement and cultural arts (Unifiedknowledge).

1.00pm to 2.30pm

Binary Drumming Class:

One of six very special Summer School 2017 courses hosted by the Black Open University; open to all children and adults every Tuesday from 25th July, 1st, 8th, 15th, 22nd to the 29th August 2017. The Binary Drumming Class will be from 10.00am to 11.30am on the above dates.

Binary Drumming is an important part of "the language of Unifiedknowledge". Come and learn a ground breaking cross-curricular style of drumming that also introduces the value of sign language, expanding Ones freedom of expression, broad ranging communication skills and profound maths-in-music insights.

What does the course cover?

You and family can...

- Perfect harmony, cooperation and concentration with the drum.
- Master number through our unique binary drumming style.
- Learn the principles of Unifiedknowledge Language (የጥምር ዕውቀት ቋንቋ); communicate clearly by drum play (musically), by hand-sign, in writing (African script), by voice and with advancing practice even higher levels

As just one example of our science arts integration join the "Journey around the Sun" drum practice and visualise travelling around the Sun with our planet, learning science through creative arts.

Find out more about this and the other five Summer School 2017 courses from here: <http://blackopenuniversity.eu/guides/summer2017/pass/>

10.00am to 11.30am

Binary Drumming Class:

The language of unifiedknowledge. Expanding Ones freedom of expression, communication skills and maths-music insights (+ e-learning resources).

Full Course Cost: £45 per family / individual price, contact us for more info.

Re-integrate into learning, book into the full Summer School programme and get a great discount and a fantastic experience.

Venue: Chestnuts Community Centre, 280 St Ann's Road, London N15 5BN

All courses are open to all children and adults every Tuesday over the summer holidays. Don't miss out! Book your places today.

The Physics of Warrior Dance:

One of six very special Summer School 2017 courses hosted by the Black Open University; open to all children and adults every Tuesday from 25th July, 1st, 8th, 15th, 22nd to the 29th August 2017. The Physics of Warrior Dance Class will be from 11.40am to 12.45pm on the above dates.

Come and learn, through a ground breaking tuition, the relationship of physics and African dance. Come to know what physics is really about.

This very special master class will:

- 1) Introduce basic movements of African Warrior Dance (martial-cultural-arts-science) along with the broader ethos of such practices.
- 2) Introduce principles of Unifiedknowledge approaches to learning.
- 3) Introduce some key physics vocabulary; velocity, momentum, force, gravity, angular velocity, angular momentum, centrifugal force, torque, centre of gravity, balance, the physics of turns, the illusion of floating, effects associated with body size and much more.
- 4) Introduce the language of mathematics in science for parents, the primary-educators.

Find out more about this and the other five Summer School 2017 courses from here: <http://blackopenuniversity.eu/guides/summer2017/pass/>

Full Course Cost: £117 per family / individual price, contact us for more info.

11.40am to 12.45pm

Warrior Dance (Dankira Tehwagi)

Learn about Transformations with Winchi (the African Crowned Crane bird):

One of six very special Summer School 2017 courses hosted by the Black Open University; open to all children and adults every Tuesday from 25th July, 1st, 8th, 15th, 22nd to the 29th August 2017. The Warrior Dance (Dankira Tehwagi) Class will be from 1.00pm to 2.30pm on the above dates.

Dankira Tehwagi (panAfrican Warrior Dance) is a very empowering martial-cultural-arts practice. Come and learn about it through our classic Transformations of Winchi (the African Crowned Crane bird) course. You will learn how key cultural life skills & core ideas of mathematics can be learnt through dance movement and cultural arts (Unifiedknowledge).

Find out more about this and the other five Summer School 2017 courses from here:

1.00pm to 2.30pm

Abit's Secret: The Revelation

(of deep space geometry ideas explored through a beautiful children's story):

One of six very special Summer School 2017 courses hosted by the Black Open University; open to all children and adults every Tuesday from 25th July, 1st, 8th, 15th, 22nd to the 29th August 2017. Abit's Secret: The Revelation Class will be from 2.45pm to 4.15pm on the above dates.

Abit's Secret: The Revelation course explores deep space geometry ideas through a fun and highly engaging children's story; the key science and maths ideas of space are (or at least should be) a foundational learning point for all children, families and teachers. Come and find out why, come and find out how as the story author Astehmari Batekun works through the Abit's Secret book going into detail on the culturally blended learning processes and embedded activities designed to get learners gracefully to the root points and principles needed for advance learning in the future; you can hear more about the book from abitssecret.co.uk.

Find out more about this and the other five Summer School 2017 courses from here: <http://blackopenuniversity.eu/guides/summer2017/pass/>

Full Course Cost: £117 per family / individual price, contact us for more info.

Re-integrate into learning, book into the full Summer School programme and get a great discount and a fantastic experience.

All courses are open to all children and adults every Tuesday over the summer holidays. Don't miss out! Book your places today.

Planetarium CREST Arts Award:

One of six very special Summer School 2017 courses hosted by the Black Open University; open to all children and adults every Tuesday from 25th July, 1st, 8th, 15th, 22nd to the 29th August 2017. Abit's Secret: The Revelation Class will be from 2.45pm to 4.15pm on the above dates.

Planetarium CREST Arts Award: This is an intensive and highly creative science-arts integration programme (STEAM) focused around explorations of the Solar System, dome structure building from triangular forms and artistic freedom in space.

Astronomy is one of the oldest science disciplines. Modern Astronomy is a term used to refer to the scientific discipline in which we collect, correlate and interpret data pertinent to our entire observable universe from our galaxy to the farthest reaches of extragalactic space. Yet simply looking up at the night sky presents the profound (artistic) beautiful wonder of our world to most people.

Indigenous, endogenous, traditional, or Cultural Astronomy focuses on the many ways that people and cultures interact with celestial bodies. African cultural astronomy is an inter-disciplinary field with intersections in the fields of anthropology, history, religion, African studies, science studies, art, folklore, mathematics and astronomy. Join us as we journey with the principles of Africa's Culture in Astronomy explored through a pop-up (community built) Planetarium !

We will share the principles of constructing a (geodesic) dome from simple triangular unit forms. In this course we will be working with the CREST Award and the Arts Award, blending them through the Unifiedknowledge approach to learning so that young participants (from primary and secondary ages) will be able to earn these two nationally recognised awards. We'll rebuild our community built popup planetarium so all can enjoy projections of outer space as we project our minds beyond all apparent limits.

Find out more about this and the other five Summer School 2017 courses from here: <http://blackopenuniversity.eu/guides/summer2017/pass/>

Full Course Cost: £117 per family / individual price + £40 award admin costs per portfolio, contact us for more info.

Re-integrate into learning, book into the full Summer School programme and get a great discount and a fantastic experience.
